

# OUR POLICY FOR QUALITY, SAFETY, HEALTH AND ENVIRONMENT

- Our products are of high quality.
- We work efficiently, in accordance with agreed guidelines and specifications and strive for constant quality.
- Our quality, product and occupational safety, health and environmental practices exceed ISO norms, contractual arrangements and legal and regulatory requirements.
- We work towards continuous improvement in our performance in the areas of quality, product and occupational safety, health and environmental practices.
- Together we determine the success of our company; training, personal development and appraisals are subject to continuous review.
- We work with specific targets, keep to our agreements and communicate openly.
- We operate both preventively and pro-actively with the objective of ensuring that our colleagues, our company, our partners in the food chain and the environment are in no way endangered.
- Our suppliers are aware of our policy and have adapted their policies to be in accordance with our own.
